Meriteollisuus Finnish Marine Industries

Finnish Marine Industries is a branch association for marine industry companies across Finland, fostering collaboration in industrial and economic policies. The marine industry in Finland comprises high-tech maritime solution providers, leading marine equipment manufacturers, turn-key suppliers, material suppliers, design offices, software and system providers, as well as shipbuilding, ship repair, and offshore yards. With around 90 member companies, we offer a comprehensive representation of Finland's marine industry.

The directory presents the member companies of Finnish Marine Industries, alongside the cutting-edge technologies and services offered by the Finnish marine industry.

Discover more at marineindustries.fi.

ABB Oy

ABB (ABBN: SIX Swiss Ex) is a pioneering technology company with a comprehensive offering for digital industries and with a history of innovation spanning more than 130 years. ABB business line Marine & Ports is transforming the marine industry through electric, digital and connected solutions. ABB's innovative technologies are redefining the future, bringing new levels of reliability, efficiency and sustainability to shipping and making ports and terminals safer, greener and more productive.

www.abb.com/marine

Adwatec **Adwatec Oy**

Adwatec is a water technology company serving customers in the Marine, Electrical Grid, Heavy Industry, and other sectors globally. With almost two decades of experience in advanced water cooling for power electronics and a strong focus on R&D, we provide our customers with proven and state-of-the-art solutions. Our products are very compact and made for extreme marine conditions. Our offering covers the whole product lifecycle from solution consultation and engineering to installation, commissioning, and after-sales.

www.adwatec.com

Aker Arctic **Aker Arctic Technology Oy**

Aker Arctic Technology Oy specializes in development, design, engineering, consulting and testing services for ice-going vessels, icebreakers, arctic cruise & expedition vessels, offshore marine structures, marine transport solutions and ports. The company operates a special test facility in Helsinki. In addition, Aker Arctic markets and sells complete ice-going ship projects. The company's past references include icebreakers, Arctic or Antarctic research vessels, a variety of cargo vessels and concepts for offshore structures.

www.akerarctic.fi

Aker Solutions Finland Oy

Aker Solutions Finland Oy is a project management company in Finland, 100% owned by Aker Solutions. Aker Solutions delivers integrated solutions, products and services to the global energy industry. We enable low-carbon oil and gas production and develop renewable solutions to meet future energy needs. By combining innovative digital solutions and predictable project execution we accelerate the transition to sustainable energy production. Aker Solutions operates internationally, head office located in Oslo, Norway.

www.akersolutions.com

Alfa Laval Aalborg Oy

Alfa Laval Aalborg is specialized in marine boilers with Aalborg™ products. Our innovative solutions for heat recovery systems and fired boilers in cruise and passenger vessels improve customers' energy efficiency and emissions reductions, as well as savings in fuel costs. Through the global Alfa Laval group, there is available a wide variety of products for heat transfer, separation, and fluid handling for the marine industry. Alfa Laval Aalborg Oy is a member of Cleantech Finland.

www.alfalaval.com

Allstars Engineering Oy

Allstars Engineering is a leading marine, offshore and industrial engineering and consulting organization. Renowned Finnish marine engineering makes us a reliable partner that delivers tailor-made solutions to meet your needs. With smooth customer collaboration we have designed exceptional vessels such as multipurpose icebreakers, special cargo, Ro-Pax and cruise ships. During a 30-year history Allstars has made a profound impact on the maritime industry.

www.aegroup.fi

ALMACO Group Oy

As a full turnkey provider, we offer newbuilding and modernization of all hospitality and interior living areas, as well as full lifecycle support to owners and shipyards in the marine and offshore industries. We build and serve complete interiors including cabins, superstructures, public spaces, wet units, galleys, provision stores, refrigeration machinery, and laundry. ALMACO was founded in 1998 and has offices in Brazil, China, Finland, France, Germany, Italy, Singapore, and USA.

www.almaco.cc

Antti-Teollisuus Oy

Antti-Teollisuus Oy, established in 1952, is a family-owned business manufacturing marine fire doors. Product portfolio includes accommodation & interior fire and sound reduction doors for cruise, ferry and offshore. Since 1992, Antti-Teollisuus has designed and delivered close to half million doors for various projects in the shipbuilding and offshore industries. Products and production are certified according to MED and ISO9001:2015 standards. Production facilities are located in Salo, south-western Finland.

www.anttimarine.fi

APEX-MARINE OY

APEX-MARINE OY, founded in 2020 in Turku, provides extensive and custom-tailored installation, welding, and repair services in Finland and abroad. Our expertise is marine and ship industry related projects requiring quick resolution by skilled staff managing projects from keel to chimney. We can also deliver custom-built piece goods cost-effectively through our own machine shop, partner, and extensive network. We are experienced in managing projects thoroughly from designing and planning up to installation.

www.apexmarine.fi

AQ Trafotek

AQ Trafotek Oy

AQ Trafotek, established 1983, is an independent manufacturer in inductive product solutions for energy generation, distribution and use. The company designs and produces transformers, reactors and electrical filters for marine, oil & gas, renewable energy and industrial automation. Hundreds of vessels, from cruise liners and electric ferries to offshore rigs and platforms, rely on AQ Trafotek solutions for high-quality energy out at sea. AQ Trafotek is headquartered in Finland, and has production facilities in Finland, Estonia, China and Brazil.

www.trafotek.fi

Auramarine Oy

Since 1974, Auramarine has provided proven customer value and expertise to deliver world-class fuel systems and auxiliary units to the marine, power, and process industries. We offer solutions for methanol operation, biofuels and for conventional fuels. We also provide retrofit and modernisation services, as well as lifecycle support and spare parts. Over time, the company has delivered more than 15,000 units and has agents in 25+ countries, with offices in Finland and China.

www.auramarine.com

Beacon Finland Ltd Oy

Beacon Finland Ltd Oy (since 1987) is a naval architectural consulting company located in Rauma, Finland. Beacon provides concept design, ship theory and structural design for small craft. We have also strong knowhow on general strength analysis, including FEA. JAK® ATB Coupling System (device to connect tug and barge as one unit) is developed by Beacon, we manufacture and sell the units too. Beacon has also provided various thruster installations for the offshore industry, including retractable Thruster Canisters.

www.beaconfinland.com

Bertel O. Steen Power Solutions Finland Oy

Bertel O. Steen Power Solutions is part of privately owned Bertel O. Steen group in Norway, and the headquarter is located in Bergen. The company's main business is supply and life-cycle support of the diesel and gas power systems from Rolls-Royce's business unit Power Systems for commercial marine and industrial applications as well emergency power systems as for critical infrastructure applications. It also has hybrid and full electric propulsion solution for work boats, passenger vessels and ferries.

www.bospower.com

Bluetech Finland Ltd

Bluetech offers ship design from concept to production in all engineering disciplines, analysis and calculation services from ship theory to weight control, design coordination at all ship project stages and production support at the shipbuilding site. The company has a unique combination of people with decades of experience as well as newcomers bringing fresh ideas to the industry. HQ in Helsinki, the group of companies employs over 80 professionals. Additionally, we have offices in Turku, Ho Chi Minh City and Goa.

www.bluetechfinland.com

CADMATIC Oy

CADMATIC develops digital and intelligent 3D-based design, engineering and information management software solutions for the marine, process, and construction industries. CADMATIC Marine Design software is a complete solution for large, medium-sized and small shipyards, design and engineering offices, and subcontractors. With CADMATIC you can complete the most complex projects, regardless whether you are doing initial design, basic design, detail design, or generating production information.

www.cadmatic.com/en/marine/

Comatec Industrial and Marine Oy

Comatec Group provides engineering design, project management and expert services for the technology industry. In the marine sector, Comatec offers electrical and automation design as well as mechanical design and structural FEM analysis from the sales project stage through basic design to detail design. The company's special areas of expertise are cruise liners and ice-going vessels. We typically provide our services for shipyards, ports, equipment manufacturers and other consultation agencies.

www.comatec.fi

Deltamarin Ltd

Deltamarin specialises in ship design, offshore engineering and construction services for maritime and offshore industries worldwide. The company's expertise covers fit-for-purpose designs in all ship types and offshore vessels. Deltamarin delivers services from concept design development and engineering to project management. For operating vessels, it offers a wide range of life-long support services. In addition, Deltamarin develops own concepts and platforms for different vessel types (e.g. ro-pax and cargo).

www.deltamarin.com

EIE Maskin Oy

EIE Maskin Group is a distributor of mechanical transmission components in Sweden, Norway and Finland. The company's main market is within marine and offshore applications. EIE Maskin supplies components such as clutches and brakes, both for propulsion and winch applications, as well as rack and pinion components. In addition, the company provides heavy duty linear rollers and profiles for ramps, hatches and other similar applications, as well as other components upon request.

www.eie.fi

Elcoline Oy

Elcoline is a Finnish industrial maintenance company founded in 2002. In the marine industry, Elcoline Marine offers the design of electrical and piping systems, installation, and maintenance services for different types of vessels. Elcoline has participated in the construction of a wide range of vessels; from luxury cruise ships to advanced container ships and vessels used by the navy. Elcoline Group employs around 500 industrial maintenance professionals. We operate in 100% Finnish ownership. Our vision is to achieve.

www.elcoline.fi

Elomatic Consulting & Engineering Oy

Elomatic Consulting & Engineering Oy specializes in a wide range of design, engineering and project management tasks for a comprehensive range of vessel types. Elomatic has extensive know-how in cruise ships and ferries, special vessels, conversions and retrofits, marine concepts and information management solutions. The company's services cover all disciplines and the full life cycle of the product from feasibility studies and pre-design to detail design, production support, site supervision and lifecycle support.

www.elomatic.com

Emmanoa Oy

Emmanoa Oy offers consulting, advisory, market analysis/market support, business planning/execution and IPR services related to shipbuilding and other maritime industry businesses. The company has a background of 50 years in shipbuilding with the global coverage of market, international cooperation and technology. The specific areas of expertise are related to cruise, ferry and arctic businesses.

Eero Mäkinen
eero.k.makinen@gmail.com

Enersense Offshore Oy

Enersense Offshore Oy is a Finnish engineering, project management and fabrication powerhouse. It continues the long offshore industry tradition of Pori established more than four decades ago. The company's core business areas are renewable energy products, oil & gas offshore/subsea equipment, pressure vessels and special steel structures. Enersense Offshore Oy operates the well-recognized and reputable facility in Mäntyluoto, Pori.

www.porioc.com

E.U.-Adhoc Project Oy

E.U.-Adhoc Project Oy, established in 1999, provides turn-key solutions and interior outfitting to vessels and business centers. The company's service portfolio includes also project management and HR services for turn-key-contractor, cabin, bathroom, sleeping and other interior modules. Main office and production facilities are located in Forssa, Finland.

www.adhoc.fi

Evac Oy

Evac is one of the world's leading providers of integrated water and waste management systems, as well as corrosion-protection systems, for the marine, offshore, and building industries. Evac's cutting-edge solutions and services have been helping leading global players in these industries to significantly reduce their environmental footprint for 40 years. The company is headquartered in Espoo, Finland.

www.evac.com

Foreship Ltd.

Foreship Ltd. is a ship design and marine engineering company established in 2002. With over 90 employees in 8 offices worldwide, its team of Naval Architects, Marine Engineers, and Sustainability Experts specializes in challenging conversion projects (with 1,500+ projects to date), as well as concept design, consultancy, and project management for high-profile newbuildings. Customers include cruise lines, shipyards, and maritime suppliers, as well as ship owners in the passenger, cargo, and offshore sectors.

www.foreship.com

FURUNO Furuno Finland Oy

Furuno Finland Oy is a well-known manufacturer of integrated navigation bridges. Furuno's special expertise is the turn-key delivery consisting of design, manufacturing, installation, commissioning including full acceptance tests (FAT, HAT, SAT) and training. The company supplies to newbuildings and retrofits worldwide. Furuno also imports, supplies and provides installation and maintenance of navigation, communication and fish finding products and offers solutions for foreign and domestic vessels, yachts and surveillance systems for the authorities.

www.furuno.fi

GROKE Groke Technologies Oy

Groke Technologies founded in 2019 provides solutions that will reduce navigation crew stress and ensure peace of mind during operations even in the most challenging situations. Headquartered in Turku, we are also present in Tokyo. Our Awareness system monitors the surroundings of the vessel and keeps the watchkeepers and captain aware of the risks around the vessel. The solution utilizes machine learning and sensor fusion – it provides more accurate detections comparing to current navigation equipment onboard.

www.groke-tech.com

Halton Halton Marine Oy

Halton Marine develops, manufactures and markets reliable, high-quality ventilation solutions specifically designed for shipbuilding, energy and infrastructure industries. The company offers products and systems for ventilation fire safety, cabin ventilation, galley ventilation, laboratory ventilation and air intakes. Halton Marine's track record includes deliveries to over 150 major cruise ships, 200 oil & gas projects and 100 naval vessels.

www.halton.com

Helkama Bica Oy

Helkama Bica specializes in the development and production of marine and telecom cables. We provide solutions and manufacture cables for Marine, Telecom, Industrial, Flexible, Offshore (SHF2), Optical fibre, Instrumentation, and Fire-resistant applications. Helkama exports yearly to more than 60 countries all over the world, has over 200 shipyards as customers, and is known as a stable partner for several multinational corporations. We stand for quality, flexibility, and outstanding personal service.

www.helkamabica.com

Helsinki Shipyard – DNY Finland Oy

Helsinki Shipyard opened a new chapter in its history when Group Davie announced they had finalized the acquisition of the assets of the shipyard in November 2023. Helsinki Shipyard is the world leader in the design and construction of icebreaking and high ice-class vessels. Over 50% of the global icebreaker fleet has been built in Helsinki. We design and build high-end passenger and cruise vessels. We do it all from concept development & design to construction & commissioning. Also other services available.

www.helsinkishipyard.fi

I.S. Mäkinen Oy

MAKINEN is a leading interior turnkey project contractor in the marine industry, specializing in newbuilding and refurbishment of cabins and public spaces for cruise ships and passenger vessels worldwide. Additionally, MAKINEN is a trusted marine-grade furniture manufacturer and supplier. With a record of over 60,000 refurbished cabins, completion of interiors for six expedition vessels, and a fleet of 60,000 MAKINEN sofas onboard ships globally, we consistently deliver exceptional marine interiors.

www.ismakinen.com

Jalmare Oy

Jalmare Oy is specialized in design and engineering, providing workforce, offering turnkey solutions and delivering prefabricated components. Jalmare brings together knowhow, expertise and best practices in Finnish and Romanian shipbuilding industry. Head office of the group is located in Turku, Finland. Romanian operations of the company stand in Constanta on the coast of Black Sea. In addition to home markets, the group operates global as well.

www.jalmare.com

KAEFER Oy

KAEFER's service portfolio includes insulation, accommodation, public spaces and catering. In the marine sector, KAEFER offers turn-key solutions for new builds and refits, from cruise liners and yachts to naval vessels. The company can operate as lead contractor for construction, servicing and refurbishment work in all areas of insulation, surface and passive fire protection, scaffolding, HVAC, interior outfitting and maintenance.

www.kaefer.com

Kavika Oy

Kavika offers visual turnkey deliveries for marine catering areas with strict hygiene requirements. Fixtures for galleys and restaurants typically include stainless cold and hot counters, freezers and refrigerators. We have a special emphasis on designing USPH compliant solutions with installation and after-sales services. With over 70 years of experience we have furnished fittings and fixtures for more than 200 luxury liners and special purpose vessels. Our hospital solutions are now also available for the marine segment.

www.kavika.fi

Kemppi Oy

Kemppi is a pioneering company within the welding industry. Kemppi's offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Headquartered in Lahti, Finland, Kemppi employs over 800 welding industry experts in 17 countries. Local expertise is available via Kemppi's global partner network covering over 60 countries.

www.kemppi.com

Koja Oy

Koja, established in 1935, offers air conditioning systems which improve energy efficiency and passenger comfort. The company delivers solutions for cabins, public areas and special spaces as well as ventilation for cargo hold.

www.koja.fi

Elevators
Escalators

KONE Hissit Oy

KONE provides marine solutions that combine industry-leading elevator and escalator technologies with world-class lifecycle support, backed up with an impressive track record of on time, on-budget delivery for shipbuilders. On board passenger vessels, smooth people flow is the key to ensuring that journeys are pleasant, reliable, and safe for everyone and KONE solutions on board help to do just that. The company's trusted marine specialists can serve customers in all major ports through KONE's global network.

www.kone-marine.com

KONGSBERG

Kongsberg Maritime Finland Oy

Kongsberg specializes in developing advanced technologies, to provide extreme performance for extreme conditions. Working together as a global team, Kongsberg has created an integrated portfolio of solutions, for businesses, partners and nations operating from the depths of the sea; to outer space; to the digital frontier. The company's portfolio covers on- and offshore, merchant marine, subsea, navy, coastal marine, aquaculture, training services and more. Kongsberg's solutions are trusted by 30,000 vessels globally.

www.kongsberg.com

Laivasähkötyö Oy

Laivasähkötyö Oy, established in 1962, carries out electrical installations, maintenance and engineering for buildings, industry, ships and rolling stock. The company's product portfolio includes electric motors, frequency converters, belt and chain drives and LST lights, to mention some. Laivasähkötyö has engineered and performed electrification work for the marine and transportation industries and for the Finnish Defence Forces. The company is the oldest member of the LST Group.

www.lst.fi

Lamor Corporation Ab

Lamor, headquartered in Finland, offers oil spill response and environmental solutions for a wide range of scenarios and climatic conditions. The company provides soil and water treatment services globally. Lamor's portfolio of products and services also includes industrial applications. The company has sold oil spill response equipment to 120 countries and more than 1,800 vessel mounted systems have been delivered to customers worldwide.

www.lamor.com

Oy Lautex Ab

Lautex Oy, established in 1951, specializes in manufacturing suspended metal ceilings for both the construction and shipbuilding industries. Lautex offers a diverse range of products including panels, profiles, cassettes, gratings, and custom-designed ceilings. All products meet International Maritime Organization (IMO) standards. Known for quality, quick installation, and aesthetic appeal, Lautex products are a preferred choice for architects, turn-key companies, and shipyards worldwide.

www.lautex.com

LED Tailor Oy

LED Tailor is a Finnish company specializing in the development and manufacture of chemical-free disinfection solutions based on blue LED light. Our solutions contribute to better surface hygiene and air quality in passenger vessels where bacteria and virus infection prevention is first of all a passenger and crew safety issue. In addition, our solutions create significant savings for the cruise operator by preventing large outbreaks, in consumption of chemicals, water and energy, as well as in healthcare costs.

www.ledtailor.fi

Litana Finland Oy

Litana Finland Oy, founded in 2006, is part of the Litana Group. We specialise in providing a full range of shipbuilding services: from hull fabrication to pipe fitting, electrical installation, and painting and surface treatment. Our core team consists of highly qualified engineers, welders, assemblers, pipe fitters, electricians, and painters with many years of experience in shipbuilding. Our specialists have extensive experience working on cruise ships, icebreakers, and ferries in various shipyards throughout Europe.

www.litana-group.com

Machine Technology Center Turku Ltd.

Machine Technology Center Turku Ltd. is a learning, training and development center focusing on future technologies and the management of production processes. The objective is to help companies improve their manufacturing processes and introduce more efficient production methods into use. The company's services include proto product design, product and production development, measuring and calibration, manufacturing and training. The facilities consist of high-tech laser, robot welding, sheet metal technologies, mechanization and production automation technologies.

www.koneteknologiakeskus.fi

MAN Energy Solutions Sverige AB, Finland Branch

MAN Energy Solutions is one of the world's leading providers of large-bore diesel and gas engines and turbomachinery. Our portfolio includes two-stroke and four-stroke engines for marine and stationary applications, turbochargers and propellers, as well as gas and steam turbines, compressors and chemical reactors. Our commitment to minimizing fuel consumption while meeting even the most advanced emission regulations plays a vital role in safeguarding the environment for future generations.

www.man-es.com

Marioff Corporation Oy

Marioff's HI-FOG® fire suppression system is currently installed on more than 2,000 vessels, ranging from private yachts to vast cruise ships and navy vessels. The smart architecture of HI-FOG – one panel controls the entire ship's system – allows it to be used quickly and efficiently. Furthermore, it is able to protect every part of the ship, including accommodation, galleys, service areas, Ro-Ro decks and machinery spaces.

www.marioff.com

Material Maintenance MaMa Oy

Material Maintenance MaMa Oy develops software solutions serving the product and material management for the interiors. The components and functionality of the MaMa tool software enables sustainable development towards a carbon-neutral circular economy and efficiency in scheduling, as all data can be used in future planning and decision making. MaMa Tool enables seamless and effective collaboration channel for all stakeholders.

www.materialmaintenancemama.com

Merima Oy

Merima Oy, established in 1987, offers state-of-the-art turn-key interior solutions for cruise and passenger ships globally. Merima provides a full range of turn-key services from architectural planning to final installation at the customer's location. The object is to provide the finest quality and flexible solutions, while managing every stage of the project. In addition, Merima offers steel to steel as well as visual turn-keys globally. The company has an own top-notch factory in Helsinki, Finland.

www.merima.fi

Mesekon Oy

Mesekon Oy is a system provider and the company's mechanical workshop is specialized in advanced welding with a wide variety of steel materials. Mesekon manufactures medium-heavy and heavy steel structures including machining and product assembly (scrubbers, hull fittings, propeller housings, enclosures, frame bases). The staff is familiar with the handling of demanding welding standards (NORSOK, EN, ISO, ASME). Mesekon serves shipbuilding, offshore, oil & gas, power, cleantech, construction and other industries as well.

www.mesekon.fi/en

Metalliasennus Huuhka Oy

Metalliasennus Huuhka Oy is known as a leading turn-key supplier in the Finnish shipbuilding industry. The company has built restaurants, bars, casinos, lounges, specials shops, shopping arcades, cabin areas and laundry areas in luxury cruise ships and modern passenger ferries for over 30 years. Huuhka is located in Sauvo, southern Finland.

www.huuhkaoy.com

Metos Oy Ab

Metos Marine is a leading supplier of galley and laundry equipment to vessels worldwide. Metos equipment is used in more than 6,000 ships including icebreakers, naval ships, cargo vessels, passenger ferries and offshore. In-house production of most equipment guarantees consistent quality control, efficient material handling and short delivery times. The company provides equipment for cooking, refrigeration, food serving, dishwashing, waste handling and laundry.

www.metos.com

Meyer Turku Oy

Meyer Turku Oy employs over 1,800 and specializes in building highly complex, innovative and environmentally friendly cruise ships, car-passenger ferries, and special vessels. Together with two sister shipyards in Germany, Meyer Werft and Neptun Werft, Meyer Turku is one of the world's leading cruise ship builders. We are currently building cruise ships for Costa Crociere and Carnival Cruise Lines. The orderbook also includes cruise ships for Royal Caribbean International and TUI Cruises.

www.meyerturku.fi

Millog Marine & Power specialises in the maintenance of marine technology, engines, and backup power units. Our services include vessel maintenance and dry docking, field services, conversion projects, technical marine structures, and maintenance for engines and power plants. Together with other Millog Group companies, we employ more than 200 marine technology experts to provide comprehensive maintenance services for public and private operators, authorities, shipping companies and navies.

www.millog-mp.fi/en

Mobimar Ltd. is a boatyard and engineering company specialized in workboat and submarine design and building. The company's vessels are suited to various applications like research, rescue, fairway service, oil recovery and crew transfer. Mobimar also provides submarines for the tourist industry. In addition, the company designs and accomplishes modular cruise ship systems. Mobimar is based in Turku on the southwest coast of Finland.

www.mobimar.com

NAPA provides software, services and data analysis for increased safety, efficiency and productivity in ship design and operation. NAPA Design Solutions offer trusted 3D model-based design software for the shipbuilding industry. NAPA Shipping Solutions has tools for ship data management, ship and fleet-wide performance analysis, and for the optimization of route, speed and trim. NAPA Safety Solutions provide loading and stability systems, including flooding emergency and decision support solutions.

www.napa.fi

Navice Oy

We cover major manufacturing techniques and installation methods related to stainless steel materials with over 35 years of experience. Our core business areas are galleys, cold and freezer rooms, dry storage areas, pantries, ice stations, laundries, bar counters, and buffet lines for luxury cruise ships under USPH standards. Navice Oy's core team consists of stainless-steel experts. Our team members have been working in extremely demanding installation sites worldwide.

www.navice.fi

Oy NIT Naval Interior Team Ltd

NIT Naval Interior Team, established in 2000, is a group of companies specializing in turnkey interior design and construction deliveries for all kinds of vessels. The company designs and builds various passenger and crew areas, such as restaurants and stairways, including technical background work such as insulation, electrical installation, piping and HVAC. NIT's vision is to be the most respected partner in the industry by providing sustainable and innovative solutions for the leading shipyards and owners.

www.nit.fi

nora flooring systems Oy

The shipbuilding and offshore industry demand unique and specific flooring solutions. nora® floor coverings meet the specific demands made on floor coverings for interior use in all types of vessels as well as in the offshore industry worldwide. nora offers a selection of IMO-Certified and Coast Guard Approved flooring solutions to meet the demands of different applications.

www.nora.com

NORSEPOWER

Norsepower Oy Ltd

Norsepower was established in 2012 and is the global market leader in auxiliary wind propulsion for large ships. The Norsepower Rotor Sail™ is a mechanical sail that reduces ship's fuel consumption and emissions by 5 – 25%, or even more in good conditions. The product is best suited for bulkers, tankers, RoRos, ferries, LNG carriers, RoPaxes and passenger ships. Please check our website for more information or contact sales@norsepower.com.

www.norsepower.com

oilon

Oilon Oy

For more than 50 years Oilon has supplied combustion solutions for various marine applications such as steam and water boilers, thermal oil heaters and waste incinerators. Heavy oil, marine diesel oil, marine gas oil, ultra-low sulphur marine gas oil, natural gas (LNG), methanol, even VOC gases, you name it! Whether you need a ship or an offshore installation, Oilon can offer you a combustion solution!

www.oilon.com

onninen

Onninen Oy

Onninen, established in 1913, provides material and information flow solutions to contractors, industries, public organizations, technical product retailers and suppliers. The company enables customers to concentrate on their core business by providing technical specialists and material services. The service portfolio includes e-commerce services, logistics services and project services. Onninen Oy is part of Kesko Group and headquartered in Helsinki, Finland.

www.onninen.fi

Orsap Oy Ltd

Orsap Oy Ltd, established in 1991, is a turn-key contractor specialized in complete interior deliveries of public and cabin areas and partial deliveries for luxury cruise liners. The company holds references for luxury suites, cabin areas, main staircases, restaurants, galleys, conference areas and prefabricated office and bathroom modules. In addition, Orsap provides HVAC, piping and AC-room installations. The company's main office and prefabrication workshop are located in Raisio, Finland.

www.orsap.fi

Paramet Konepaja Oy

Paramet Konepaja provides heavy steel fabrications for a variety of industrial segments. We value process and product quality without compromising occupational safety. Our professional project team serves our customer base throughout the process. We follow the guidelines of ISO9001, ISO3834-2, and ISO45001, of which the first two have been certified by a third party. Our ongoing investment program ensures that we can provide our customers with the latest proven manufacturing technology.
